

Chippewa Flowage

Range of Allowable Firewood

Chippewa Flowage

50 Mile Buffer

In order to prevent the movement of invasive forest insects and diseases, firewood burned in Wisconsin DNR campgrounds must originate from within the state and within 50 miles of the campsite. Firewood from sources approved by the Wisconsin Department of Agriculture, Trade and Consumer Protection is allowable. For more information about firewood regulations please visit: <http://dnr.wi.gov/invasives/firewood/>
